Annual Report and Sustainability Report

(please upload a copy of your recent Annual Report and Sustainability Report in English and Arabic)

If you also have a digital version of both reports above, please provide the link(s).

Please address these questions in accordance with any market ESG guidelines:

- 1. Who is responsible for ESG/sustainability reporting in your company (include references/links to the reporting line, ESG/sustainability committee and any supporting message/reporting)**
- 2. Which frameworks/standards do you use for ESG/sustainability reporting (include references/links to these supporting frameworks/standards, for example: UN SDGs; GRI; SASB; others that apply to your business)**
- 3. Who are the main stakeholders you have identified as key target audiences for your reporting? (Please include references/links to these stakeholders in your reporting)**

4. What Environmental, Social and Governance (ESG) factors are material to your business and how/where are these highlighted in your reporting? (Please include references/links to these factors in your reporting)

Results:

Please add supporting report from Board of Directors and Executive management on any key performance indicators/roadmap for ESG/sustainability reporting and evidence of change and success in the past year, for example, inclusion in ESG/sustainability index/indices.

Other key success factors

Please, upload any other supporting information that demonstrates your ESG process and roadmap for a sustainable business, including any internal assessment and or external assurance and verification.

Concluding statement to support why your IR Programme best reflects the integration of ESG/sustainability into your investment story and how it stands out from your peers in 2023 (max. 500 words).
